Furthermore, the circular contains a list of countries where staff are entitled to reimbursement for the costs of basic medical examinations for accompanying family members, and of duty stations which are on transition. Following the mid-year review of field duty stations according to conditions of life and work, the effective date for the relevant documents is 1 July 2010 except for resubmissions, which is 1 January 2010.

### III. List of new duty stations with an effective date of 1 July 2010

#### Reactivated duty station

When an organization decides to field international staff for one year or more assignments to an inactive duty station, it is called a reactivated duty station. The normal procedure to reactivate an inactive duty station is to request ICSC to assign a temporary classification\* by the organization.

#### \*Temporary classification

Temporary classifications are assigned by the ICSC upon request by the organizations without a formal review. A temporary classification rating is only valid for a period of one year and therefore, it expires one year after the date of assignment and automatically becomes inactive. In addition, a temporary classification rating becomes inactive when a duty station no longer has internationally recruited staff assigned to it. A temporary classification is subject to a subsequent review by the Working Group for the classification of duty stations according to conditions of life and work, based on the submission of a questionnaire by the duty station within a year.
