III. List of new duty stations with an effective date of 1 July 2012

Reactivated duty station

When an organization decides to field international staff for one year or more assignments to an inactive duty station, it is called a reactivated duty station. The normal procedure to reactivate an inactive duty station is to request ICSC to assign a temporary classification** by the organization.

**Temporary classification

Temporary classifications are assigned by the ICSC upon request by the organizations without a formal review. A temporary classification rating is only valid for a period of one year and therefore, it expires one year after the date of assignment and automatically becomes inactive. In addition, a temporary classification rating becomes inactive when a duty station no longer has internationally recruited staff assigned to it. A temporary classification is subject to a subsequent review by the Working Group for the classification of duty stations according to conditions of life and work, based on the submission of a questionnaire by the duty station within a year.
