INTRODUCTION

A consolidated schedule of post adjustment classifications and threshold figures used for calculating rental subsidies (or deductions) is attached.

Names of countries and areas, which appear in English alphabetical order, are indexed in French in the list attached to the schedule.

In cases where only one post adjustment classification is shown for a country, normally for the capital city, that classification will be applicable for all duty stations within the country.

This schedule is effective **1 October 2024**, unless otherwise indicated, and supersedes any schedule previously published. It is available on the ICSC home page <http://icsc.un.org>

On trouvera ci-joint un barème mis à jour du classement des lieux d'affectation aux fins d'ajustements des indemnités de poste et des seuils aux fins du calcul des allocations (ou déductions) de logement.

Les noms des pays et localités figurent par ordre alphabétique anglais. On trouvera à l'index annexé au barème les noms en français.

Dans les cas où une seule classe est indiquée pour le pays, en général pour la ville capitale, cette classe s'applique à tous les lieux d'affectation dans le pays.

Sauf indication contraire, le barème ci-joint entre en vigueur le **1^{er} octobre 2024** et remplace tous les barèmes déjà parus. Il est disponible sur le site internet de la CFPI: <http://icsc.un.org>

IV. 0.5% Rule

1. The results of the application of the 0.5% rule for group I duty stations are included in the attached Consolidated Post Adjustment Circular.

V. The Application of the modified 0.5% Rule for group I duty stations

2. At its 96th session, the International Civil Service Commission (ICSC) approved the application of the modified 0.5 per cent rule for group I duty stations that meet two conditions: (a) the currency of the duty station is neither any of the currencies of headquarters duty stations (that is, the US dollar, Swiss Franc, Euro, or British Pound), nor pegged, in a fixed or otherwise strict manner, to them; and (b) the share of in-area expenditures incurred in non-local currencies by reference to the benchmark net take-home pay (NTP) based on the results of the latest cost-of-living survey is at least 15 per cent. For such duty stations, the monthly multiplier between reviews is obtained by keeping two separate shares of benchmark NTPs, expressed in US dollar and in local currency, stable, with a maximum fluctuation of plus or minus 0.5 per cent, with the share of the NTP expressed in local currency adjusted for changes in the exchange rates only, whereas the share of NTP expressed in US dollars is insulated from local currency fluctuations. The share of the NTP expressed in US dollars is obtained as the share of in-area expenditures, incurred in non-local currencies, of the benchmark NTP at the time of survey implementation.

3. In accordance with the provision of the application of the modified 0.5 per cent rule for group I duty stations, as outlined above, the post adjustment multipliers applicable for **Hungary** and **Romania**, with effect from 1 October 2024, are included in the attached Consolidated Post Adjustment Circular.

VI. Cost-of-living surveys

4. The results of cost-of-living surveys for duty stations listed in Table 1 are included in the attached Consolidated Post Adjustment Circular.

VII. Gap Closure Measure

5. The Commission, at the request of the General Assembly, established the gap closure measure, to be applied in situations where the implementation of a place-to-place survey results in a significantly lower post adjustment index (PAI) than the existing pay index. Details of these procedures are contained in the Commission's report of the work of its thirty-fifth session ICSC/35/R.17, para. 61 (d) and in the post adjustment circulars ICSC/CIRC/PAC/208 and ICSC/CIRC/PAC/281 of 6 April 1992 and 4 May 1998, respectively.

6. The Gap Closure Measure was refined by the Commission for surveys conducted under the 2021 round as follows:

- a. The updated PAI derived from the survey (updated to the month of implementation), is augmented by **3 per cent** to derive a revised Post Adjustment multiplier (PAM) for the duty station.
- b. The revised PAM is applicable to all Professional staff members in the duty station. Existing staff members, already at the duty station on or before the implementation month of the survey results, receive the revised PAM, plus a PTA.
- c. The PTA is **first** calculated as the difference between the revised and prevailing PAMs.

- d. During the next **5 months** the PTA is set to ensure the same net take-home pay at the implementation date; and thereafter, the target net take-home pay is adjusted downward by **3 per cent every 4 months**, until the PTA is phased out.
- e. During an adjustment month, the decrease factor would be applied to the net take-home pay of existing staff, and the personal transitional allowance required to keep net take-home pay stable within revision periods calculated accordingly. The personal transitional allowance would be phased out when, at a revision point in time, the net take-home pay for existing staff is aligned with that for all staff at the duty station.

7. The Gap Closure Measure was applied to the group II duty station listed below, following the implementation of the results of a cost-of-living survey. Table 2 shows the steps in the calculation of the resulting personal transitional allowance effective 1 October 2024.

Table 2: Duty station under gap closure measure based on cost-of-living survey effective 1 October 2024

Duty station	Existing PAM	Existing pay index	Updated Survey PAI	Updated Survey PAI augmented by 3%	Revised PAM	PTA
		(2) + 100		(4) x 1.03		(2) - (6)
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Sri Lanka	48.5	148.5	142.5	146.8	46.8	1.7

VIII. Duty Stations with Personal Transitional Allowance (PTA)

8. Under the modified operational rules as described in the document *ICSC/CIRC/GEN/04/2024* published on 5 July 2024, the PTA is calculated every month to ensure that the Net Take-Home Pay (NTP) for existing staff does not decrease but also does not exceed its initial maximum setting in the first month of the new application. The first six months after the implementation of survey results, the PTA will bridge the full gap between the new benchmark NTP and the prevailing NTP at that time. Following this period, the NTP for existing staff will be gradually reduced by 3% every four months, with the PTA adjusted monthly to reflect the difference between the NTP for existing staff and the newcomers. This monthly adjustment process will continue until the NTP for existing staff will coincide with the statutory one. The PTA became applicable for **Sri Lanka** due to low survey results implemented in October 2024. Table 3 provides a summary of all PTAs in effect as of 1 October 2024.

9. It should be noted that the PTA is paid **in addition** to the regular post adjustment multiplier and thus should be taken into account in determining all other entitlements ordinarily affected by post adjustment, such as rental subsidy, settling-in grant, spousal allowance etc. PTA should be paid only to staff on post on or before its starting month. Except for the PTAs that began before March 2023, when the Covid-19 special measure was in place, any staff joining the duty station after the PTA starting month will not be eligible for the currently existing PTA unless the PTA is revised as a result of the implementation of another survey in which case staff on post after the

PTA start date can become eligible. Please refer to ICSC/CIRC/GEN/08/2023, issued on 29 May 2023, for more detailed guidelines on the implementation of PTAs.

**PTA is revised on a monthly basis to maintain the NTP until the next revision date*

10. The gap closure measure is completed for the **Russian Federation**. Therefore, the personal transitional allowance (PTA) is no longer applicable for this duty station effective 1 October 2024.

IX. W40 Measure

11. The waiver of the **40 per cent** of rent limit on rental subsidy is **no longer applicable** for **Brazil, Mongolia, Russian Federation, Rwanda and Sri Lanka**, effective 1 October 2024.

X. One Month Rule (OMR)

12. Due to sustained substantial inflation over the past six- and twelve-month periods, the one-month rule is applicable for **Argentina, Lebanon, Sudan and Türkiye**. Under this rule, the post adjustment multipliers of **these duty stations** are reviewed monthly during the period of substantial inflation. Based on the application of the one-month rule, the applicable post adjustment multipliers for these duty stations, effective 1 October 2024, are listed in the attached Post Adjustment Circular.
